|---------------------|--|-----------------------------|
| Model               | IBOX-501 N3  |                             |
| Case Color          | Black(color can be customized)                                   |                             |
| Material            | High-quality pure aluminum                                       |                             |
| CPU                 | Adopt Intel Celeron J1900 quad core 2.0GHz                       |                             |
| Chipset             | Adopt Intel express chipset                                      |                             |
| Mainboard           | 120*120mm mini itx mainboard                                     |                             |
| RAM                 | 1*SO-DIMM DDR3 , Support Max 8G                                  |                             |
| Storage             | 1*MSata, 16G/32G/64G/128G/256G/512G SSD (optional 500~1T HDD )   |                             |
| Audio               | Integrated Realtek ALC662 6sound channel                         |                             |
| Display Interface   | 1*VGA, 1*HD  |                             |
| Display             | Integrated Intel HD Graphic card, support VGA, HD, display input |                             |
| I/O                 | USB  | 5*USB2.0, 1*USB3.0          |
|                     | COM  | 1*RS232 COM(2*COM optional) |
|                     | WIFI Antenna   | 2                           |
|                     | Lan  | 2*RJ45 lan                  |
|                     | Audio  | 1                           |
| Network Card        | 2*RTL8111E 1000M lan, support wake on lan                        |                             |
| Expansion           | 1*mini-PCIE, support Wifi and bt                                 |                             |
| Watch Dog Timer     | Support  |                             |
| Power Supply        | DC 12V-IN power supply and AC power adapter                      |                             |
| Operating System    | Windows 7/8/10, Linux  |                             |
| BIOS                | AMI 64Mbit Flash ROM   |                             |
| Working Temperature | -10°C - 60°C   |                             |
| Working Humidity    | 0% - 95% relative humidity, Non-condensing                       |                             |
| Size                | 134*126*39 mm (W*D*H)  |                             |
| Weight              | 0.65kg   |                             |
